### EMPLOYMENT

#### GSN GAMES

Bangalore, India · Aug. 2022 to Current

##### Technical Artist

- As an experienced professional, I have had the opportunity to work with creative artists on a variety part of project, including event clubs, bold bits, and Rooms. In these projects, I was an active collaborator and contributed to the overall success of each part through my technical expertise.
- One of my key responsibilities was to participate in the integration and optimisation of assets, ensuring that they were effectively utilised and delivered high-quality results. I also led dev art meetings, where I provided guidance and direction for the development of new features, and established a structure for these features to ensure their successful implementation.
- One of my proudest achievements was the implementation of particle systems for UI, which added a dynamic and visually appealing element to the user interface. I was also responsible for solving bugs and providing assistance with PR merging, ensuring that any issues were resolved in a timely and efficient manner.
- Overall, my work experience has allowed me to develop a strong understanding of the creative and technical aspects of game development, and I am confident in my ability to continue making a positive impact in this field.

#### YUDIZ SOLUTIONS PRIVATE LIMITED

Ahmedabad, India · Jan. 2020 to July 2022

##### Unity Developer

- I have extensive experience working with a talented team of Unity Developers, where I have contributed to the creation of a number of clone games and personal prototypes, including Duet clone, Ball and Maze 3D, 8 Ball Pool clone basic, Soccer Stars, and Slash Pong.
- I have been dedicated to a specific project for over 2.3 years, earning recognition and appreciation from the client. In addition to hands-on development, I have taken on the challenge of managing a large team, effectively addressing their issues and ensuring everyone works together towards a common goal.
- I have demonstrated the ability to work on multiple projects at the same time, effectively communicating with clients to ensure the company's goals and requirements are met. Furthermore, I have been instrumental in the training and development of new team members, providing sessions on key Unity concepts and guiding them through the creation of their first game.
- I am a team player who actively participates in team bonding activities and has organised Krunker tournaments for the team. My passion for games and commitment to the team make me a valuable asset to any development project.

# PROJECTS

## Food Fights

Sept. 2021 to July 2022

Welcome to the chaos of the restaurant! In this fast-paced and exciting game, players take on the role of helping hungry foodies grab as much food as possible. The objective is simple, but the challenge is real.

Players must quickly add the food to plates to keep the game going. However, not all food is created equal, and players must be careful to avoid the bad food items, which are identified by a red border color. The key to achieving a high score is to play fast and avoid the bad food items.

This is a game of skill, speed, and strategy.
